Reddi-Strip™ System

PEX staples for
foamboard applications
in easy-to-load flexible strips

Reddi-Strip™ System

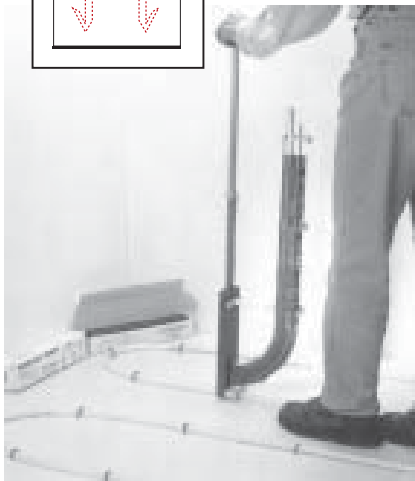

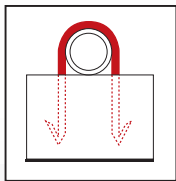

***speeds
installation
time!***

**Reddi-Strip™ Staples
are connected in
strips of 50, ready
to load and fire.**

***reduces
installation
cost!***

**Manufactured in strips of 50,
Reddi-Strip™ Staples are
produced for less and
sell for less!**

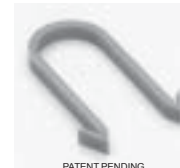

Less expensive to buy and less expensive to use. Excellent holding power on both open cell and closed cell foamboard. When fastening 5/8" tubing, for example, the staples will be driven in approximately 1 1/4" to hold the PEX securely .

No more loose staples, no more tape to strip off. Just load the strips, position the stapler over the PEX, and fire away!

Available at:

PEXHEAT.COM

The Reddi-Strip™ Stapler is strong and lightweight. A "stand-up" tool, no more bending, no more sore knees.

**Contact us for more information,
or to locate a distributor near you!**
